

Attention Project Managers/Coordinators!
Interested in Helping Us Further
Engage Tomorrow's NASA Workforce?

NASA Student Ambassadors

Virtual Community

Accepting Nominations Now

Nominations Due August 23, 2013!

NASA is taking bold steps to prepare the next generation of explorers by engaging undergraduate and graduate students in NASA research and interactive opportunities.

This activity is an innovative way to recognize the exceptional contributions of students already in the NASA pipeline, and further engage them in NASA activities.

The **NASA Student Ambassadors Program** provides:

- Interaction and mentoring relationships among outstanding interns in NASA higher education projects
- Opportunities for students to participate in NASA events, and direct access to employment opportunities and educational experiences
- A compelling vehicle for the NASA community to enhance communication with the next generation of space explorers

This program is supported by NASA's Office of Education. In addition to exclusive access to NASA education resources and information, participants will receive the following:

- **NSAVC Membership**
- **Certificate of Participation**
- **A chance to directly network with NSAVC Mentors (scientists, engineers, and administrators)**

NASA Student Ambassadors will have the Opportunity to:

- **Work** alongside NASA scientists and engineers
- **Represent** NASA at activities, events, and career fairs
- **Meet** the Administrator and other leadership at NASA
- **Participate** in peer networking and mentoring activities
- **Participate** in communication focus groups
- **Disseminate** information on NASA internships, research, and education opportunities

Nominate up to 20 Students!
